## Envelop User Stories

File Actions	returning user	I want to export notes as Word documents or PDFs	share final files in whatever format needed.
File Actions	expert user	I want to replace a file with an entirely new version	save other settings associated with that item.
File Actions	expert user	I want the option to save an item manually	have security my files are being saved, even when connection is spotty.
Folders	expert user	I want to export a folder/board of links or images to a PDF	have one static, sharable view of this folder's collection of thoughts.
Folders	expert user	I want to drag and drop (reorder and move between folders) my saved links and files	quickly reorganize them by my priority, not just by date or alphabetically.
Account	expert user	I want to receive notifications of new comments and edits on collaborative documents	stay updated on any changes.
Goodies	expert user	I want to install a browser bookmarklet	drag and drop links and images into a new item in my dashboard.
Goodies	expert user	I want desktop access (toolbar or dashboard)	quickly create a new note.
Account	expert user	I want to manage multiple accounts from one dashboard	easily switch between logins for different purposes.
File Actions	expert user	I want to see suggested files below a selected file, based on tags and native indexing	quickly jump to related files.
